

Discover the Secret of The World's Most Perfect Water

Did you know that there is a little-known secret about water that has existed for thousands of years and it was carefully hidden from us?

- Some Scientists and Health Professionals know about it
- The powers that control the Pharmaceutical Industry know about it
- Tested & verified by independent lab in the NASA Langley Research Centre
- Yet 99% of the world has never even heard of it!

Why Every BODY Needs X₂O

Most people without knowing it could be:

- Dehydrated
- Mineral deficient
- Too acidic

Whether you drink tap, filtered, distilled, reverse osmosis or bottled water, add a sachet of X₂O to transform your water to Mineral Enhanced, Oxygen-Rich Super Water. Use to replace sport's drinks.

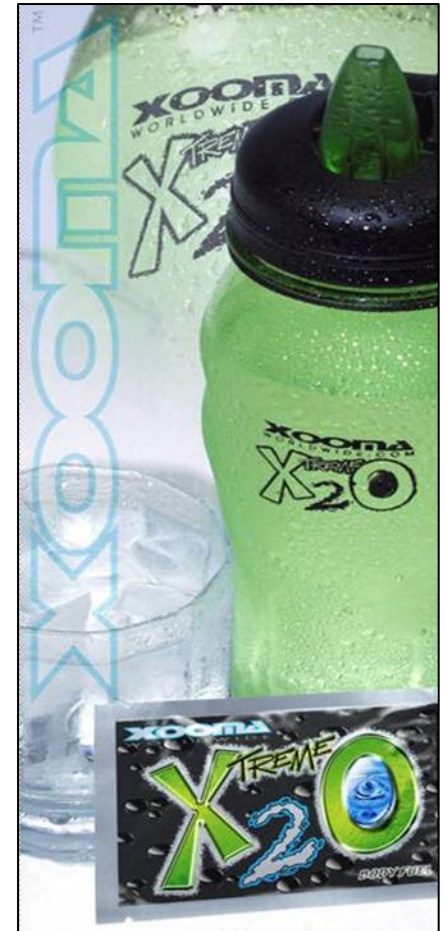

- Simply drop an X₂O sachet into 750 ml of water in a Xooma bottle
- Shake for 10-15 seconds
- Allow 5 minutes for X₂O to transform your water

X₂O is a Natural Organic Mineral Complex providing Electrolytes:

74+ trace minerals including Calcium, Magnesium and Potassium

- ✓ **Hydrates** - the ultimate way to hydrate the body
- ✓ **Mineralizes** - in ionic form at the cellular level
- ✓ **Alkalizes** - balances your body's pH for optimum health
- ✓ **Revitalizes** - your energy levels
- ✓ **Rejuvenates** - your body and skin
- ✓ **Oxygenates** - your body's cells
- ✓ **Cleanses** - Removes toxins from the body

Try X₂O for Yourself

The following testimonials share some of the personal benefits experienced by using X₂O. We encourage you and your family to experience first hand, the benefits of X₂O.

My X₂O came & I have 3 people trying it... My first results were fantastic... My work-out was completed for it's first time w/o skipping anything... Afterwards I did not feel tired!!! Thanks, Bob

My niece had **acne** on her face. **She started taking X2O and her skin cleared up within days!** LM Qld

With X2O, my recovery from lactic acid build up has improved dramatically after my Hatha Yoga practice. Peter, SA

My daughter is pregnant and has been taking one sachet of X₂O per day. When she ran out of it for 4 days she had **morning sickness**, which **disappeared** as soon as she went back onto it again. Vicki L, NSW

30 years of traveling has me totally used to **jet lag**. After recent 36-hour trip to London, **I have never arrived in such a fit condition after drinking X₂O on the flight**. I also no longer suffer from stiffness in my feet and ankles when I wake up and I have **total relief from arthritis in my hands**. What a product! Stewart G., QLD

My partner has had most of her large **intestine removed due to cancer** & eating was a problem especially at dinner as it could upset her stomach most of the night. After being on the X₂O she has been able to **eat more food with less reaction**. Lindsay QLD

This presentation is intended for educational purposes only. We recommend that you try X₂O yourself. Any individual testimony and views expressed reflect a personal experience only, have not been evaluated medically and are not intended to suggest, generalise, imply or guarantee results for others. Please consult your health practitioner for any medical condition or disease and discuss your personal situation and any possible effects of the product. X₂O is a water enhancing/purification product and is not intended as a therapeutic product, nor to diagnose, prevent, treat or cure any medical condition or disease. The body, when properly hydrated, mineralized and balanced, can usually unlock its own innate wisdom to heal and take care of itself. March 31st 2006.

X₂O Hydrates

NASA Langley Research Centre Laboratory independently tested X₂O.

They found X₂O to be the only product of its kind to register "minus" readings on the ORP meter, making it more bio-available and bio-absorbable to your body's metabolic function

X₂O lowers the surface tension of the water molecules, allowing your body to hydrate at the cellular level.

HYDRATION: Did you know?

- ✓ Dehydration is a primary reason for daytime fatigue & can slow down your metabolism as much as 3%
- ✓ Just a 1%-2% drop in body water can impair your mental focus, concentration & physical performance
- ✓ Drinks that have caffeine like colas, coffee, or tea actually stimulate fluid loss & promote dehydration
- ✓ The primary cause of a hangover is major dehydration. Alcohols and the sugars they contain deplete fluids from the body's cells and particularly the brain - a key reason for headaches, dry mouth, upset stomachs & overall malaise.

Dr. Alexis Carrell, 1912 Nobel Prize - Medicine

Since the molecular structure of water is the essence of all life, the man who can control that structure in cellular systems will change the world."

X₂O Mineralizes

Every Sachet of X₂O is a natural **ORGANIC mineral complex** containing calcium, magnesium, potassium and over 70 trace minerals. These essential minerals become ionic in water, allowing them to be absorbed quickly and easily by your body. Many of these minerals CANNOT be obtained from our diet as they have been depleted from the soil.

ELECTROLYTES: Did you know?

- ✓ Exercise and prolonged physical activity cause you to lose vital electrolytes, which are critical for nerve impulses and muscle contractions
- ✓ Quickly replenishing lost electrolytes is essential for peak physical performance
- ✓ Major electrolytes (minerals) needed by your body are calcium, magnesium and potassium, which can all be found in X₂O

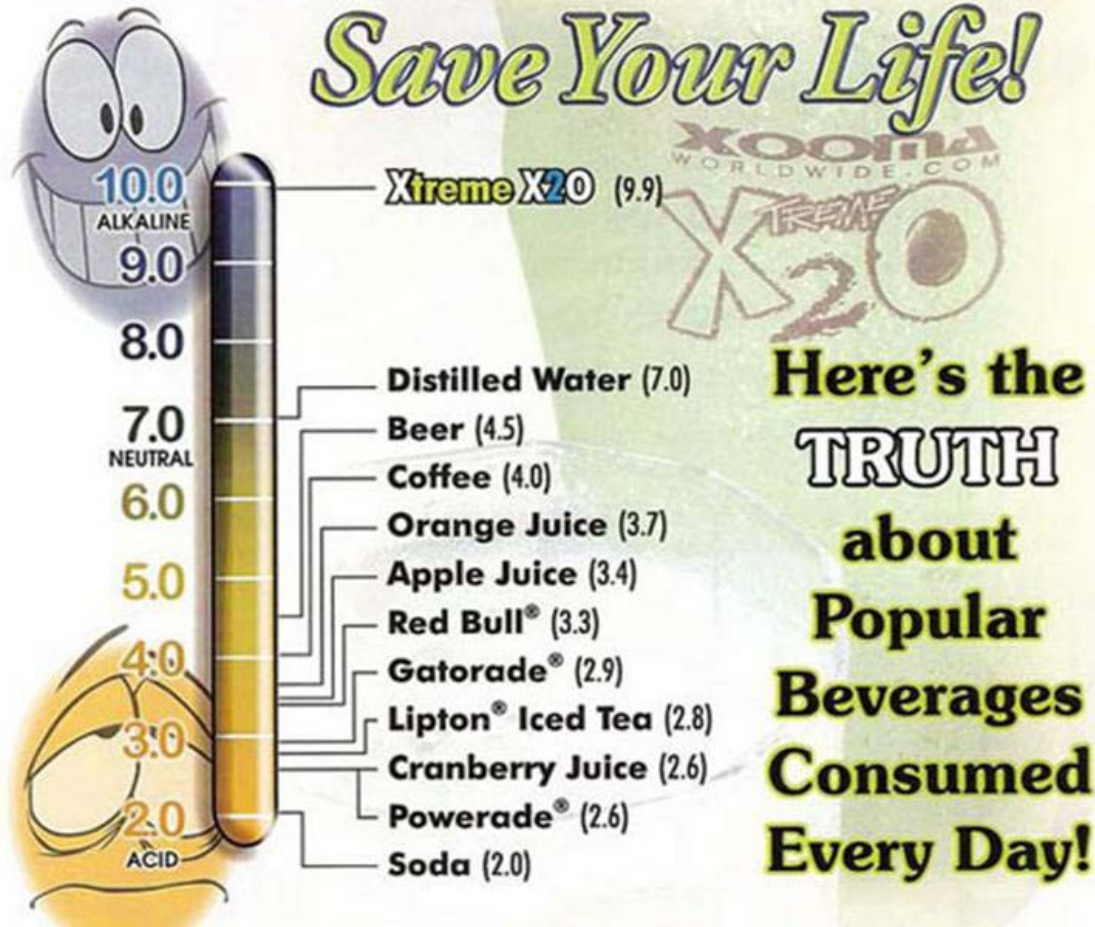

Dr. Linus Pauling, 1954 Nobel Prize – Chemistry, 1962 Nobel Prize - Peace
"Every sickness, every disease, can be traced to a mineral deficiency"

X₂O Alkalizes

Understanding Your Body's pH Level could

Save Your Life!

Help balance your pH with X₂O

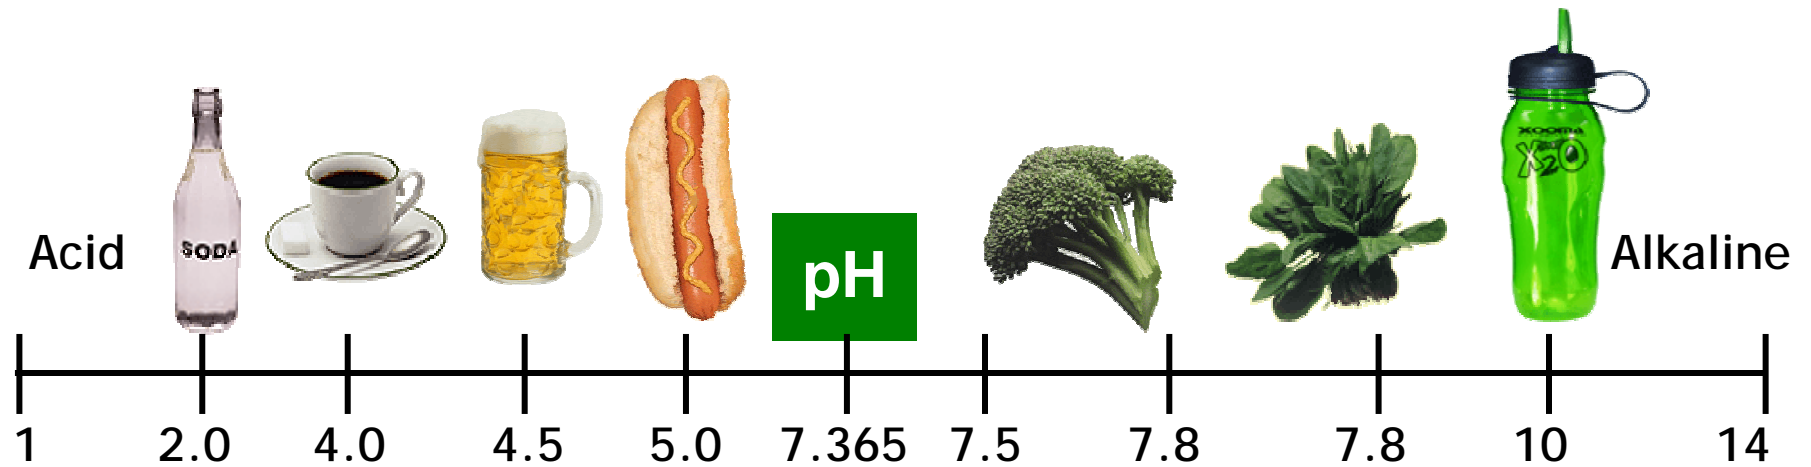

Importance of Correct pH

Dr Otto Warberg, 1931 Nobel Prize - Physiology

"If our internal environment is changed from an acidic, oxygen deprived environment to an alkaline environment full of oxygen... viruses, bacteria and fungus cannot live."

"Alkalinity" = oxygen = good health. A one-point drop on the pH scale means "10 times more acidity." That means having a drink with a pH reading of 2, (eg. Cola) is 100,000 times more acidic than a drink with a pH reading of "7" (such as water). It takes approximately 35 glasses of water to neutralise the acidity from 1 bottle of Cola.

Add **X₂O** to balance your pH & combat Acidosis

What is Acidosis?

- Our body systems work to keep our blood and the fluid surrounding our cells slightly alkaline at pH 7.365 – your body will do EVERYTHING it can to maintain the correct pH, including cannibalising first the muscles then the tendons, joints and bones, looking for calcium, magnesium and potassium. This can result in illness and other degenerative conditions
- The process of metabolism (the digestion and burning of our foods to produce energy) results in waste products, which are acidic. The body produces fat cells to store this acid to protect your vital organs. This can lead to Obesity. Acidity weakens the immune system and leads to a condition called acidosis and disease.

When treated with X^2O the pH of your drinking water is raised to between 9 – 10 on the pH scale. It is a simple, practical and affordable way to help counteract the acidity in your body.

Dr Theodore Baroody - Alkalize or Die – *"The countless names attached to illness do not really matter. What does matter is that they all come from the same root cause: too much tissue acid waste in the body."*

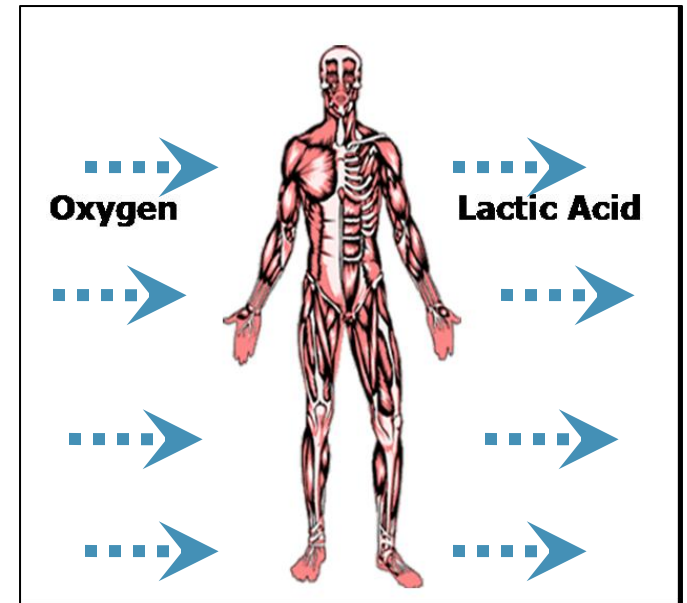

Why Athletes & Anyone Exercising need X₂O

Sports drinks like Gatorade and Powerade are popular with Athletes and sporting participants but these drinks are VERY acidic.

The implications of X₂O are extremely exciting to those interested in physical fitness. In a performance or training situation the body strives to get oxygen to the muscle cells and to take the lactic acid away from them

The alkalinity of X₂O helps the body neutralise the build up of acid waste in the muscles.

Reduced levels of lactic acid can allow athletes to lift more, go further, recover faster and experience less stiffness and soreness during the following days and nights.

X₂O also hydrates and replaces important electrolytes lost during exercise.

Whether you're an athlete looking for peak performance, a regular participant in sports, a parent who's concerned about your children's beverage choices, someone who works out at the gym or who is just looking to enjoy better health, X₂O is the right choice. Just one sachet can transform your water into "premium fuel" for your body's daily needs.

Try X₂O for Yourself

Many of us have come to accept a lesser standard of wellness than we need to.

We may only realise how much better we can feel after using X₂O. We may find we are less tired, have less pain, less swelling and stiffness in the joints & muscles, more energy, clarity of mind, movement and flexibility, improved sleep & digestion. .

Subtle, seemingly small improvements can really enhance the quality of our lives

I am a registered nurse and for several years I have suffered from **lower back and leg pain** - at times it was hard for me to walk. I have tried so many medications, nutritional products, etc. and nothing worked. I thought I would have to learn to live with the pain. I was also taking medication for **acid reflux**. Within the first week of using X₂O, I noticed my back pain was less and I was able to walk more freely. 8 weeks later I **feel so good I could dance. I have no pain in my back or legs and my acid reflux has completely gone.** I no longer need the medication and my doctor is interested in trying X₂O. My friends say I look great or younger and ask what I am doing. Imagine how good that feels! My sweet tooth has completely gone and I have lost weight. I am amazed that adding a sachet of X₂O to my drinking water could achieve such results. Jill, Sydney

I am so thrilled with X₂O. I had torn the ligaments in my right knee and had had **swelling in that knee for about 3 years.** After only 5 days of taking X₂O, the **swelling in my knee has completely gone.** What a phenomenal thing! **My energy is astounding** and I am so excited about my future with Xooma. Joe

See How X₂O Works!

Images magnified 45,000 times "show" the difference X₂O made in Paul C's blood analysis.

This photo shows Paul's live blood just seconds after it was sampled from his finger. It shows a condition called blood rouleau or clumping, where red blood cells stick together and stack like coins. The cells get less oxygen and movement of blood through small veins and capillaries is slowed. The cause is poor digestion and undigested fat and protein in the blood.

Clumping can result in poor circulation leading to many health problems, including heart related conditions.

Immediately after drawing the first sample, Paul drank his first X₂O... one quart of X₂O water treated with two sachets.

This photo is of a sample drawn a half hour after Paul drank the X₂O treated water. The red blood cells become larger, are separated and free flowing. Nothing else was ingested and there was no other treatment of any kind.

X₂O changes the molecular structure of the water so that it integrates into the blood cells, taking with it the 70+ trace minerals. A massive 90% goes into the blood stream BEFORE ¹¹ reaching the digestive tract!

Try X₂O for Yourself

I used to wake up in the mornings with **stiffness in the lower back and legs**. I had **high blood pressure and cholesterol and my blood sugar was over 6**. **My parents died of heart attacks and there's a family history of type 2 diabetes**. My doctor told me I MUST lose weight.

I started using X₂O and noticed changes after the first few days. I was waking up without the stiffness in my lower back or legs and was more alert in the evenings. My energy levels increased and my cravings for sweet foods started to fade.

Ten weeks later I am feeling the **best I have felt in years** - I have **more energy, sleep much better, no cravings at all for sweet foods** & best of **I have lost 18 pounds (Approx 8kg)**. I went to the doctor for a blood test and the results are fantastic! **My blood sugar is down to 4.6 and my cholesterol and blood pressure are down to normal**.

I use 3 - 5 sachets daily as I was not in good shape and am not keen to end up dying too young like my parents. I start my day with 2 sachets in 250ml of water to give me a real boost, then refill the bottle.
Stephen, Melbourne

My courier son was VERY angry that I signed him up in Xooma. His money needed to go into his courier van, not a "tea bag". He was really sceptical. He was buying from ALDI, their Gatorade-type thing before. He has done a test, just drinking PURIFIED WATER... Na, don't feel as good. Then he drank half a bottle of the Xooma and felt just great after... Now he loves X₂O - wakes up early in the morning, not groggy & keeps going with his courier work better than before. **He is hooked!** Ruth, VIC

Look who's talking about pH!

Arthur C. Guyton, M.D., probably the most recognized author on human physiology, states in his **Textbook of Medical Physiology**: *"The first steps in maintaining health is to alkalize the body (pH or acid/alkaline balance). This is one of the most important aspects of Homeostasis. Changes in pH alter virtually all body functions."*

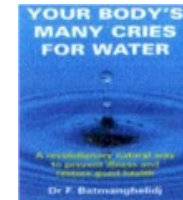

*"The cells of a healthy body are alkaline while the cells of a diseased body are below a pH of 7.0. The more acidic the cell, the sicker we become. **If the body cannot alkalize the cells they will become acidic and thus, disease sets in.** Most cells will die in the 3.5 pH range. Our bodies produce acid as a bi-product of normal metabolism. Since our bodies do not manufacture alkalinity, we must supply the alkalinity from an outside source to keep us from becoming acidic and dying."*

Dr Batmanghelid

Your Body's Many Cries For Water

"You are not sick, you are THIRSTY"

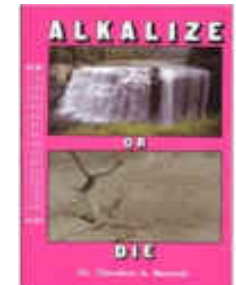

Harald Tietze

author of "Youthing", says that *"By drinking alkaline water, the aging process can be reversed and the wastes can be reduced in the long-term to a level of a much younger person. The functions of the organs can be revived."*

Dr Theodore Baroody - Alkalize or Die – *"The countless names attached to illness do not really matter. What does matter is that they all come from the same root cause: too much tissue acid waste in the body."*

Sang Whang - 'Reverse Ageing' - *"What I am telling the world is to **drink alkaline water in order to wash out acidic wastes**, the universal cause of many adult diseases"*

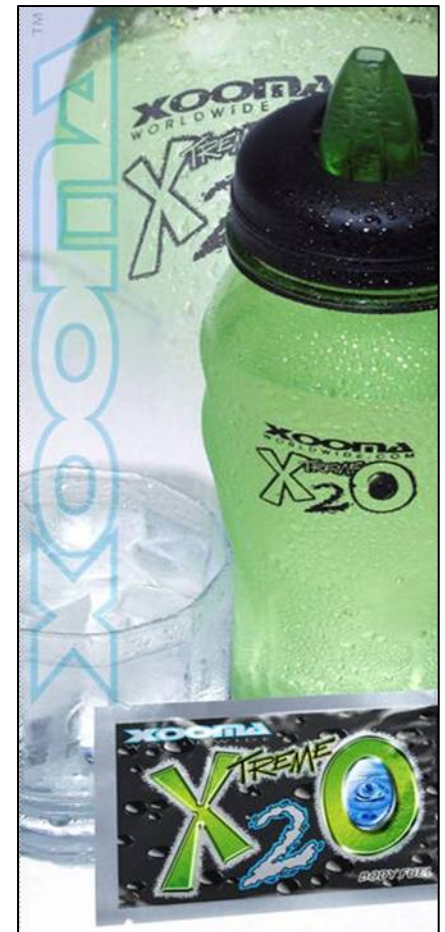

How do you get X₂O?

Become a wholesale customer with
FREE registration and receive:

- ✓ Wholesale prices
- ✓ Direct delivery to your home, business or PO Box
- ✓ Personalised website with:
 - Re-order facility
 - Purchase facility for family and friends
 - Opportunity to receive loyal customer bonuses
 - Potential to earn additional income

For your convenience, the company will set up a standing order of a minimum of 30 sachets of X₂O to ensure you don't run out each month. (Your order can be modified, skipped or cancelled at any time.)

Once people start using X₂O, they usually continue to do so and also share it with people they care about.

Our "Mission" is to Change the Health of a Generation

Look what our children are exposed to:

- Junk food and drinks full of Sugar, Flavouring, Colouring, Preservatives, Artificial Sweeteners
- Chemicals
- Pesticides
- Pollution
- Stress

This can result in:

Obesity, learning difficulties, degenerative diseases, diabetes and more...

It's Time to Make a Difference!

Together we can Make a Difference

Sharing the gift of X₂O with others, will enable you to make a difference and be part of our mission to change the health of a generation.

For sharing the message of X₂O with others, you may receive financial rewards through our friendly co-op bonus system. Rather than spend money on expensive advertising, Xooma pays YOU.

- **First Order Rewards Program**
- **Ongoing Income for Repeat Orders**

This can help you to cover the cost of your X₂O and provide you with an additional income source.

Our mutual support system is based on teamwork, personal development and everyone helping each other. There is no cost or fee for a wholesale customer to start receiving income
